### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Anthony Sitko on March 23, 2004.

On lines 7, 8 and 10 of claim 1, the phrase "the parameter" was changed to --the at least one parameter--.

On line 1 of claim 2, the phrase "the parameter" was changed to --the at least one parameter--. On line 2 of claim 2, the phrase "group of parameters comprising:" was changed to --group consisting of--.

On line 1 of claim 10, the phrase "further comprising the step of:" was deleted.

2. The following is an examiner's statement of reasons for allowance: Application serial no. 09/974,044 is being allowed in view of the declaration filed under 35 USC 131 on February 25, 2004, which is persuasive that the inventors of the instant application conceived of the instant invention as recited in the claims before the effective filing date of the Beck et al reference previously applied against the claims in a prior art rejection. In addition, none of the prior art of record teaches or fairly suggests a hemostasis analyzer that is communicatively coupled to a communication network, such as the Internet, that is in turn coupled to an analysis tool having an

algorithm for calculating a hemostasis result based upon information provided by the hemostasis analyzer over the communication network.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
